

HomeDirect About

Welcome to **HomeDirect** — your **agent-free, stress-free** destination for buying and selling property directly.

We're here to change the way people approach real estate. Tired of high agent fees, communication delays, and platforms that prioritize brokers over people? So were we. That's why we built HomeDirect — a **customer-to-customer property platform** that empowers everyday buyers and sellers to connect directly, securely, and affordably.

Our Mission

To make real estate more **accessible, transparent, and fair** by removing unnecessary middlemen and giving control back to the people.

What We Offer

- **Free Property Listings** – List or browse homes without paying a penny.
- **Direct Contact Info** – Contact sellers or buyers directly through their shared phone number or email.
- **AI-Powered Legal Tools** – Easily generate draft agreements to kickstart the paperwork.
- **Interactive Maps** – Explore neighbourhoods visually before making a move.
- **Responsive Design** – Use it on any device — mobile, tablet, or desktop.
- **No Hidden Fees** – Everything is free. If that ever changes, you'll be the first to know.

Why HomeDirect?

Other platforms focus on agents. We focus on **you** — the buyer or seller. With tools that promote transparency, real-time communication, and independence, HomeDirect simplifies property transactions for everyone, whether you're selling your first home or looking for your next.

Built By Real People for Real People

Created as part of a final year university project, HomeDirect is designed with purpose — blending user-centered design, real-world research, and scalable architecture to serve you today and grow with you tomorrow.
